

Addendum to the Presidents Council Meeting Minutes

December 23, 2019

Information regarding the *Orange Pedestrian Crosswalk Flags* was inadvertently left out of the SHIP Grant update in the December P.C. Minutes. The addendum is below:

“Do you have a dangerous crossing nearby your building? Some neighborhoods and communities have installed orange pedestrian flags as a tool for people to use when trying to cross the street. Orange flags are placed on either side of the street and people wave a flag to try and catch drivers’ attention. In early 2020, we will be reaching out to resident council officers to identify nearby crossings and install orange pedestrian flags.”
