

Community Sharing Circle  
2/1/19

Attendees:

Melissa Pappas, Ron Sexton, Roxanne Sands

The community building reimbursement was discussed. A question was asked about whether a TV would be acceptable for reimbursement. If it is used for building events it would be.

Super Bowl parties were discussed. Several hi-rises are having them. Food ideas include cold cut platters, pizza, chips and pretzels. Exchange expects 30 people at theirs. Seal is having a cooperative event where everyone attending brings something or chips in for food. It will be interesting to see how that goes.

Seal is having a Valentines party on February 9<sup>th</sup>.

Planning is going okay. There is trouble getting volunteers though.

Volunteers were talked about. It seems there used to be more people willing to volunteer in the past. Now the complexion of the buildings has changed and people don't want to volunteer.

(Different cultures in the buildings make a difference too.)

There are also more liability concerns surrounding events now.

**Next meeting: March 1st**
