Computer Team Meeting
1/23/20

Attendees: Melissa Pappas, Diane Anastos, Gerard Forys, John Cardoza, Julia Hupperts, Gy Chajili, Ron Sexton, Keri Levin, Andrew Ward

W9 forms need to be completed if you don't have one on file with the Presidents Council. These are kept securely in the Presidents Council office and only used if you receive more than $600 in stipends in a year

Donated Computers:
All computers have been updated to Windows 10. All software has been installed except Faronics. (Install files for each hi-rise a Computer is going to are needed.)
Computer that wouldn't boot has been fixed.
This Dell model is known for having an issue where it won't boot as in a power supply failure. The memory needs to be reseated to fix this.
WiFi adapters need to be purchased. We can get a TP-Link adapter for $13.99 each on amazon.com. (This is one of the best deals I have found.)
PCI internal adapters would be needed. (Not PCI 3)

One of the computers will go to Mt. Airy for their office. (Quickbooks will be installed.)

There may be stipends for helping at the family site labs in the coming months.
Aaron's contract will be up for renewal in February.

Making signs saying guests may not use the computers was suggested. (That is in the Computer Use Protocol but people might not look at that.)

Getting some kind of identification for Peers was suggested. (There have been instances when peers have been questioned by residents or staff.) Badges or lanyards were suggested.

Next meeting: February 27th
