Computer Team Meeting
12/17/20

Attendees: Melissa Pappas, Diane Anastos, Keri Levin, Youa Thao, Gy Chajili, John Cardoza, Gerard Forys, Andrew Ward

Computer Administrators Responsibilities

We need to recruit more Computer Administrators and Computer Peers. Recruiting new Admins will start next year. Councils should put up notices if they don't currently have an admin.
Multiple people from the same hi-rise can be Peers. There should be just one Admin per site though.

Starting next year Computer Admins will need to submit the cleaning log each month to get their stipend each month. (This just lets the Council know that the work has been performed each month.)
Computer Admins will have to submit a formal resignation as other officers do if they want to step down.
Attending the Computer Team meetings is required to get your stipend.

Community Room closing
The community rooms will be open from 8-4:30 Monday through Friday. There might be different rules for hi-rises with separate computer rooms.

Final details should be announced at the Presidents Council meeting.

Computer Team meeting stipends
It was discussed whether just Computer Admins got stipends for attending Computer Team meetings.
The meetings are mainly for admins. Guests would not get stipends.

Computer rep updates
Dunedin is having wi-fi connectivity issues in their office. They may need a new office computer as well.
Getting SSDs for office computers was suggested. (This would speed up the computers.)

Next Meeting: January 28th by Zoom
