The ink for McDonough has been purchased.
Wilson is using a Comcast modem right now. Derrick should probably look into this.
- **New Tickets**
 - Beth Pacunas: No new tickets lately except for Wilson.

Updates from IT Contractor

Derrick Malone: Derrick wasn't able to attend this month.
He has sent recommendations for computers for the McDonough lab.
He also has information about a new mouse for Exchange.

Updates

Beth Pacunas:

Recommendations for hi-rise labs will be forwarded to Youa. Family site recommendations will be sent to Citywide.

Youa Thao:

The Wilson Internet issue was discussed. It sounds like they need another piece of equipment to go with the rented modem. That shouldn't really be necessary.

There was an issue in the past at Wilson with someone contracted with Comcast recommending things that weren't really necessary.
