

Computer Team Meeting
6/20/19

Attendees: Melissa Pappas, Diane Anastos, Gerard Forys, Ron Sexton, Bill Hughe, Keri Levin, Gy Chajili

Router box keys are being copied. Hopefully there should be one per hi-rise. (That hasn't been decided yet.) If there isn't one per site then you would need to get the key from Julia or Diane. Aaron also still has a key.

In the hi-rise the computer admin or Council President should have the key. (Otherwise the manager or HSC should have it.)

There is a computer inventory list for all the hi-rises.

The Presidents Council is thinking about upgrading Quickbooks. (The 2015 version is no longer supported.)

There are questions about whether or not an upgrade is needed. (Some features no longer work but the ones we use aren't affected. It's mainly cloud services that aren't supported.)

The consensus is that the upgrade isn't needed at this time. (The 2015 version can still be activated and used.)

Site Updates:

Some sites have issues with the Windows Update Assistant trying to update the system.

Updating Firefox should take care of flash player update issues.

Exchange needs the printer limit raised. (The Council needs to vote on that first.)

One of Wilson's computers needs a new hard drive.

Computer Peer Training:

Aaron would like to do another training for Peers and admins. It will probably be at Mt. Airy. It will likely be on a Saturday.

Next meeting: August 15th
