

Computer Team Meeting

5/16/12

Comcast will not remove the equipment charge.
Hi-rises could by their own modems.

A survey of computer administrators was suggested. This would allow us to better tailor the training to people's needs.

Assessments done: Exchange, Edgerton, Mt. Airy, Seal, Central, Hamline, Wabasha, Dunedin.
Melissa will hold onto the forms.

To be done:

Robert: Montreal, Iowa, Valley

Jonathan: Neill and Ravoux

There may be an issue with using Quickbooks when Windows XP is no longer supported.
Quickbooks is usually good for seven years.
Windows 7 will need to be purchased for computers running Quickbooks.

New computers:

General Nanosystems

First Tech

Need one more bid.

Keyboards, Mice, Monitors from PHA.

Premium OpenDNS:

Too expensive.

Between \$9000-\$15000 per year.

We will have to stick with separate accounts for each site.

Linux:

Greg is still looking into things.

Ubuntu is installed at Seal, Edgerton, Ravoux.

There are issues in some buildings with connecting to the wi-fi. That may have to do with computer settings.

Getting wireless boxes for the printers was mentioned.

Edgerton:

Lock was torn off back of second computer.

It is not known if anything was done to that one. It is also questionable if that computer was stolen or not. A resident had it in his apartment.
